GLOBAL PARADIGM

OpsExtend

Your Team, Extended

On-Demand IT Expertise for a Fast-Moving World.

A Talent Augmentation Service by Global Paradigm

THE CHALLENGE: The IT Capacity Gap

In today's digital environment, IT teams are under constant pressure to deliver 24/7 uptime and constant innovation. However, most organizations face:

Severe Talent Shortages
Difficulty finding certified cloud and security engineers.

Scaling Friction
Projects stalled by lack of manpower.

Burnout
Internal teams overwhelmed by maintenance vs. innovation.

High Overhead
The slow, expensive process of full-time hiring and onboarding.

GLOBAL PARADIGM

THE SOLUTION: What is OpsExtend?

OpsExtend is a flexible IT talent augmentation service designed to strengthen your internal team with on-demand engineering expertise.

Unlike traditional outsourcing, **OpsExtend** focuses on collaboration. Our engineers don't work in a vacuum; they integrate seamlessly into your environment, aligning with your specific tools, processes, and governance. Whether you need short-term help for a migration or 24/7 coverage for a global network, **OpsExtend** scales with you.

GLOBAL PARADIGM

OPSEXTEND's CORE CAPABILITIES

We provide ready-to-deploy specialists across five critical domains.

GLOBAL PARADIGM

Cloud Engineering

Certified experts to manage and optimize public, private, and hybrid environments.

Focus: *Cloud monitoring, migrations, cost-tuning, and disaster recovery.*

Infrastructure & Platform Operations

Maintain stability across servers, storage, and virtualization platforms.

Focus: *Patch management, performance optimization, and incident response.*

Network Engineering

Ensuring secure, high-performance connectivity from the data center to the edge.

Focus: *SD-WAN operations, troubleshooting, and secure remote access.*

Security Operations & Compliance

Dedicated security engineers to strengthen your defenses and manage risk.

Focus: *SOC support, vulnerability management, and identity/access control.*

Application & DevOps Support

Keep your CI/CD pipelines moving and your application platforms stable.

Focus: *Automation, scripting, and release management.*

OPSEXTEND's FLEXIBLE ENGAGEMENT MODELS

We adapt to the way you work.

GLOBAL PARADIGM

Speed

Rapid access to skilled engineers without the long hiring cycle.

Flexibility

Engagement models that scale up or down as your needs change.

Coverage

Optional 24/7 shift-based support for critical environments.

Cost Control

Predictable spending with zero long-term hiring overhead.
